

CERTIFIED TRANSPORT SPECIALIST® (CTS®)

Ensuring Safety | Promoting Accountability | Enhancing
Reliability

The Certified Transport Specialist® (CTS®) course is the nation's first nationally accredited program through Non-Emergency Medical Transportation Accreditation Commission® (NEMTAC®). The curriculum covers a broad range of topics and provides the NEMT driver the knowledge and professional skills to deliver exceptional transportation services safely.

NEMTAC's online educational programs are powered by Safety Serve, an industry-leading online education provider, are interactive and self-paced. The CTS certification course is designed to meet or exceed many driver credentialing requirements prevalent within the industry.

Upon completing the CTS course, the Certified Transport Specialist® will be recognized as a nationally certified NEMT professional. A certificate of completion is available to print immediately following completion of the course.
